

Amendments to the Substitute Specification:

Please replace paragraph [0017] as follows:

DETAILED DESCRIPTION OF THE INVENTION

[0017] The display arrangement according to the invention is described with reference to a hand portable phone, preferably a cellular/mobile phone. An embodiment of this phone is shown in Fig. 1, where a cellular/mobile phone 1 is shown in perspective. As will be seen, the phone is provided with a front cover 2 having a window frame 3 encircling the protection window 3' of the display assembly 3. The cellular/mobile phone comprises a user interface having an on/off button 4, a speaker 5 (only openings are shown), a keypad 7, a battery 14, a display/LCD 3 and a microphone 6 (only openings are shown).

Please replace paragraph [0028] as follows:

[0028] The elastic gasket 40 is further provided with a flange 41 that serves as dust protection for the LCD module 30 and ~~a~~ the protection window 3' (not shown) on a front cover 2. It does not need to be a lightguide that surrounds the LCD module, but can be any kind of surrounding mechanics or fixture, as long as there is an air gap or cavity around the LCD module. The lightguide can be replaced by an illuminating foil or other provisions that can supply the LCD module with light for illumination.
